

# Zethno

Future of the city,  
city of the future

Panel discussion with representatives from social anthropology (Jennifer Duyne, Sabrina Stallone), architecture (Claudia Sinatra), and urban activism

Gentrification, displacement of marginalized groups, and the erosion of public space are at the center of the struggles in and for the city. In this panel discussion, we will talk about the future of the city and address the following questions: who has a say in the future of the city? Where do possibilities for participation and co-creation for feminist, climate-just and socially inclusive visions of urban futures emerge, in Zurich and beyond?
